Reliable USB 3.2 Gen 1 Extension for High-Speed Data Transfer

Our USB 3.2 Gen 1 Extension Cable is the perfect solution for extending the reach of your USB peripherals without compromising speed or performance. Designed for smooth and secure data transmission, this cable supports transfer rates of up to 5 GB/s—ideal for external storage devices, input peripherals, and more.

Featuring a USB-A plug to USB-A socket design, this 5-meter black cable offers the reach and flexibility you need in both home and professional environments. Gold-plated contacts ensure durable, high-quality connections. Simply plug in and enjoy compatibility with Windows, macOS, and Linux.

Wether for home entertainment or professional use, this USB extension cable offers fast, reliable connectivity.

Key Features:

- **High-Speed Data Transfer:** Supports data rates up to 5 GB/s (USB 3.2 Gen 1).
- **Plug & Play Compatibility:** Works instantly with Windows, macOS, and Linux.
- **Gold-Plated Contacts:** For improved signal quality and durability.
- **Extra Length & Flexibility:** 5m cable for extended reach in any setup.
- R**obust Construction:** Designed to handle daily wear in office or home use.
