MRCS206

MediaRange 6-way protective contact power strip with switch and increased contact protection, 45° socket arrangement 3.680W max., 1.4m cable, white

Our power strips provide a practical and flexible solution for everyday power distribution. They are suitable for connecting multiple electrical devices to a single wall socket and are commonly used in home and office environments.

Depending on the model, our power strips offer different numbers of socket outlets as well as optional features such as an integrated on/off switch for convenient control of connected devices. An angled socket arrangement can also help accommodate larger power adapters more efficiently.

This 6-way power strip with illuminated on/off switch and increased contact protection provides a safe and convenient solution for powering multiple electrical devices from a single wall socket.

The integrated switch allows all connected devices to be switched on or off simultaneously.

Featuring a 45° angled socket arrangement, the power strip enables efficient use of space, even when using larger power adapters. It is suitable for everyday use in home and office environments.

MediaRange

FEATURES

- 6 protective contact socket outlets
- Illuminated on/off switch
- Increased contact protection
- 45° angled socket arrangement
- Protective earth (Class I)

APPLICATIONS

Technical specifications

- Rated voltage: 230 V~
- Rated current: 16 A
- Maximum load: 3680 W
- Cable type: H05VV-F 3G1.5 mm²
- Cable length: 1.4 m
- Protection class: Class I
- Degree of protection: IP20

Safety & operating notes

- For indoor use only.
- Do not plug in a row.
- Do not operate covered.
- Voltage-free only when unplugged.
- Only for use in dry areas.
- Due to increased temperature load, operate only when fully unwound.
