FEATURES

- High Definition Video and Audio Transmission: Supports the transmission of high-definition video and audio signals, allowing you to connect various devices such as TVs, Blu-ray players, gaming consoles, and computers.
- High-Speed Data Transfer with up to 10 Gbps: Ensures swift and reliable transmission of high-definition audio and video signals in 4k UHD (3840x2160p) and 3D.
- 3D Capability: Support 3D video formats, allowing you to enjoy immersive 3D content when connected to compatible devices such as 3D TVs and Blu-ray players.
- 20-Pin, ver. 1.2: Featuring a 20-pin configuration, this cable enhances data transmission efficiency and reliability, catering to the needs of modern networking systems.
- Deep Color and x.v.Color Support: Supports Deep Color and x.v.Color technologies, allowing for more vibrant and lifelike color reproduction in supported content.
- Durable Design: The cable is double-shielded and designed in a round shape. This combination ensures enhanced protection against electromagnetic interference, maintaining a stable and reliable connection.
- 2.0m Length: Providing a suitable and practical length for connecting devices over short to medium distances.

APPLICATIONS

- Home Entertainment: Perfect for connecting a video device with a monitor, TV, computer and other devices.
- Gaming: Delivering optimal performance and reliability for an excellent gaming experience.
- Business: Professional Presentations with reliable connectivity for projectors and displays.
