FEATURES

- Supports USB Type-C Power Delivery 3.0: Up to 70 % faster charging of smartphones or other devices.
- Supports Quick Charge 3.0: Up to 4 times faster charging of a compatible device.
- Supports PPS (Programmable Power Supply): Ensures efficient charging and safety and minimizes heat generation.
- E-mark chip: allows for advanced communication between the cable and connected devices, enabling optimal power delivery and data transfer.
- Maximum Output Power 100W: The cable supports a maximum power output of up to 100 watts, making it suitable for charging a variety of devices, including laptops, tablets, smartphones, and other USB Type-C powered gadgets.
- USB 3.2 Gen 1x2 Data Transfer Rate of up to 10 Gbps: This high-speed data transfer capability is ideal for quickly transferring large files, such as videos, photos, and documents.
- 1.2 Meters Length: providing a suitable and practical length for connecting devices over short distances.

APPLICATIONS

- Smartphones, Tablets and Laptops: Ensure constant connectivity for your crucial communication tools. Designed for efficiency and reliability, it provides a swift and consistent charge, keeping your smartphones, tablets and laptops powered at any time.
- Wearables: Optimize the performance of your smartwatches and fitness trackers. Engineered to meet the specific charging needs of wearables, it guarantees a quick and efficient power-up.
- Other Mobile Devices: Experience versatile charging for a range of mobile devices, from cameras to gaming controllers. Our Cable provides optimal charging for all your tech essentials.
