## MRCS221

# MediaRange Active Optical HDMI™ High Speed Ethernet Cable (AOC) (Ver. 2.0), 18 Gbps, 10m, Black

MediaRange Active Optical HDMI™ High Speed Ethernet Cables are engineered to deliver stunning visuals and seamless connectivity for your audio-visual experience, whether for entertainment, gaming, or professional presentations. Our wide range of dependable high quality cables guarantees a reliable and efficient connectivity solution for various applications. With data transfer rate of up to 18 Gbps, this cable is designed to meet the demands of modern digital devices.

**Technical Specs:**

- Cable Type: Active Optical HDMI™ High Speed Ethernet Cable (Ver. 2.0)
- Data Transfer Rate: Up to 18 Gbps
- Supports 4k (3840x2160p) @ 60Hz HDR, 3D, ARC
- Gold-Plated Contacts

MediaRange

## FEATURES

- Ethernet Capabilities: Seamlessly integrate your devices with Ethernet functionality for efficient networking.
- High-Speed Data Transfer with up to 18 Gbps: Ensures swift and reliable transmission of high-definition audio and video signals in 4k (3840x2160p) @ 60Hz and 3D.
- HDR Support: High Dynamic Range (HDR) support enhances the contrast and color range of your content, providing a more vibrant and lifelike viewing experience.
- 3D Capability: Allows for the transmission of 3D content between compatible devices, bringing immersive entertainment into your home.
- Long-Distance Transmission: AOC technology allows for reliable transmission of HDMI signals over longer distances compared to standard HDMI cables, making them suitable for installations in large rooms or commercial settings.
- Immunity to Electromagnetic Interference (EMI): AOC cables are less susceptible to electromagnetic interference, ensuring stable and reliable signal transmission even in environments with high levels of electrical noise.
- ARC (Audio Return Channel) Simplifies audio connections by allowing compatible devices to send audio signals back and forth over the same HDMI cable, eliminating the need for separate audio cables.
- Gold-Plated Contacts: Ensures a secure and reliable connection, minimizing signal interference and enhancing longevity.
- Durable Design: The cable is triple-shielded and designed in a round shape. This combination ensures enhanced protection against electromagnetic interference, maintaining a stable and reliable connection.
- 10m Length: Providing a suitable and practical length for connecting devices over large distances.

## APPLICATIONS

- Home Entertainment: Perfect for connecting a video device with a monitor, TV, computer and other devices.
- Gaming: Delivering optimal performance and reliability for an excellent gaming experience.
- Business: Professional Presentations with reliable connectivity for projectors and displays.
