FEATURES

- High-Speed Data Transfer (48 Gbps): This cable allows for fast transfer of audio and video data between your devices, providing a smooth and high-quality viewing experience.
- Resolution Support: 2k@144Hz: Supports resolutions up to 2k at a refresh rate of 144Hz, ideal for high-definition gaming and fast-paced video playback. 4k@120Hz: Capable of handling 4k resolution content at a refresh rate of 120Hz, ensuring smooth visuals for ultra-high-definition displays. 8k@60Hz: Supports stunning 8k resolution content at a refresh rate of 60Hz, delivering crisp and detailed images for advanced displays.
- Version 2.1 Compatibility: This cable is designed to work with HDMI version 2.1, ensuring compatibility with the latest devices and technologies.
- HDR Support: High Dynamic Range (HDR) support enhances the contrast and color range of your content, providing a more vibrant and lifelike viewing experience.
- 3D Capability: Allows for the transmission of 3D content between compatible devices, bringing immersive entertainment into your home.
- CEC (Consumer Electronics Control): Enables devices connected by the cable to control each other, streamlining your entertainment setup and making it easier to use.
- EDID (Extended Display Identification Data): Helps devices communicate and negotiate the best possible video and audio settings, ensuring optimal performance.
- ARC (Audio Return Channel) Simplifies audio connections by allowing compatible devices to send audio signals back and forth over the same HDMI cable, eliminating the need for separate audio cables.
- 10m Length: Providing a suitable and practical length for connecting devices over large distances.

APPLICATIONS

- Home Entertainment: Perfect for connecting a video device with a monitor, TV, computer and other devices.
- Gaming: Delivering optimal performance and reliability for an excellent gaming experience.
- Business: Professional Presentations with reliable connectivity for projectors and displays.
