Reliable USB Extension with Active Repeater for Consistent Performance

Our active USB 3.2 Gen 1 extension cable with one built-in repeater is the ideal solution for stable and fast USB connections over medium distances. With a transfer rate of up to 5 Gbps and a length of 5 meters, this cable is perfect for office environments, home use, or studio setups.

Equipped with a USB Type-A plug and a USB Type-A socket, the cable ensures secure data transfer without signal loss. Gold-plated contacts provide enhanced conductivity and long-lasting durability, while the black outer jacket offers a sleek, professional appearance.

Fully compatible with Windows, macOS, and Linux systems—no drivers required.

Key Features:

- **High-Speed Performance:** Supports USB 3.2 Gen 1 with up to 5 Gbps transfer rate
- **Active Signal Boosting:** Integrated repeater for stable, mid-range transmission
- **Plug & Play:** No drivers needed; works with Windows, macOS, and Linux
- **Durable Build:** Gold-plated connectors and robust 5m cable
- **Versatile Application:** Suitable for desktops, multimedia setups, and home offices
