MediaRange DVD+R Double Layer 8.5GB|240min 8x speed, Cake 10

Reliable data storage solutions from MediaRange – perfect for backups, sharing, and everyday use.

MediaRange optical media offer high-grade quality for storing your digital data safely and efficiently. Whether you're backing up important documents, archiving multimedia content, or distributing projects to clients, our optical media deliver consistent performance and high compatibility with a wide range of burners and playback devices.

Our optical storage media are available in various formats, capacities, surface types, and packaging options to suit your needs – from everyday use at home to demanding professional environments. Engineered for reliable recording stability, long-term archival life, and excellent UV light resistance, MediaRange optical media are ideal for users who require reliable data storage solutions. The scratch-resistant surface adds another layer of protection against everyday handling.

MediaRange DVD+R Double Layer storage media are designed for high-capacity data storage and efficient archiving. The Double Layer technology allows recording on two separate layers on a single side of the disc, offering up to 8.5GB of storage – nearly twice as much as standard single-layer DVDs. With write speeds of up to 8x, your data is saved quickly and securely. Thanks to excellent compatibility with DVD+R DL burners and playback devices, you can access large video projects, backups, or file collections whenever you need them.
