

### MRCS163

MediaRange 3C-2V Coaxial antenna cable, Coax plug / Coax socket, 75 Ohm, 3.0m, White

MediaRange Antenna Cable – Reliable Signal Transmission for TV & Radio

MediaRange antenna cables provide a stable and interference-resistant connection for transmitting TV and radio signals. Designed for everyday home use, this coaxial cable ensures consistent signal quality between antenna sockets, televisions, receivers, or other compatible devices. The durable construction and precise connectors support reliable performance, while the flexible cable design allows for easy installation in various setups.

## FEATURES

- Antenna connection cable for TV and radio signals
- Coax plug to coax socket (male to female)
- Suitable for extending existing antenna connections
- Reliable signal transmission with 75 Ohm impedance
- Flexible and durable cable design
- Easy installation – Plug & Play
- Cable type: 3C-2V coaxial antenna cable
- Connectors: Coax plug / Coax socket
- Impedance: 75 Ohm
- Shielding: Double
- Length: 3.0 m
- Color: White

## APPLICATIONS

- Connecting TVs to antenna wall sockets
- Extending existing antenna cables
- Use with DVB-T, DVB-C, or FM radio systems
- Suitable for home entertainment setups

Notes: Suitable for standard antenna connections with 75 Ohm impedance. Signal quality may vary depending on installation environment and connected devices. All product details and images are subject to change without notice. Images shown may differ from the actual Product. Technical modifications, errors and misprints excepted.
