

MROS304

MediaRange Wired stereo headset with microphone and control panel, black

MediaRange PC headsets are ideal for conference calls, video conferences or for voice recognition. The flexible microphone arm and the padded, freely rotatable ear cups ensure a comfortable fit and high wearing comfort. The MediaRange headsets offer you clear communication at your conferences. The noise filter on the microphone also ensures that annoying ambient noises are filtered out of your conversation. Thanks to the adjustable headband, the headset adapts perfectly to any head shape. The headset has an integrated sound card, you only need to connect the headset to a PC or laptop via USB port to use it. The headset control has three functions: Volume Up, Volume Down, Mute.
