- Plug & Play: Ready to use without additional software
- Compatibility: Works with Windows, macOS, Linux
- Packaging: Single Blistercard
- Color: Silver / Black
- Material: Aluminium Body / ABS-Plastic Protective Cap
- Dimensions (approx.): 59x12x7mm
- Weight (approx.): 15g

Estimated Storage Capacity?

- 20.800 Images;
- 11 Hours Full HD Video
- 16.000 songs
- 64.000 Documents

APPLICATIONS

Applications

- Creative Workflows: Transfer and store large media files, such as 4K videos, RAW photos, and high-res audio
- Professional Use: Fast data backup and file handling for business documents, presentations, and reports
- Cross-Platform Access: Exchange files seamlessly between multiple systems and devices
- Portable Archive: Store extensive personal or work-related data securely and efficiently
- On-the-Go Speed: Perfect for mobile professionals who demand fast performance in compact form

Operation, Storage and Warranty Conditions

- Designed for general consumer use. For industrial or high-temperature applications, consider industrial-grade alternatives.
- To avoid data loss or corruption, do not disconnect the device during read/write operations and ensure it is correctly ejected from the computer before unplugging.
- Always back up important data.
- Keep out of reach of children and pets.
- Store the device in a cool, dry place, and avoid exposure to extreme temperatures and direct sunlight.
- Operating Conditions: 0°C to 45°C / Non-operating Conditions: -10°C to 60°C.
- Defective devices due to material or manufacturing faults will be replaced free of charge.
- This warranty excludes damage caused by improper handling, misuse, accidents, or incorrect storage.
- No liability is accepted for data loss, regardless of the cause.

Additional Notes

- ^{1?} 1 GB = 1 billion bytes. Actual storage capacity may be less due to formatting and file system requirements.
- ^{2?} The USB 3.2 Gen 1 specification is technically identical to the previously used terms USB 3.1 Gen 1 and USB 3.0.
- ^{3?} Data transfer rates can vary depending on the device and file size.
- ?? File System Suitability:
 - **FAT32 File System:** Compatible with Windows, macOS, Linux, smart TVs, car stereos, gaming consoles. Max. File Size: Limited to 4GB
 - **exFAT File System:** Compatible with Windows & macOS versions – ideal for large files. Max. File Size: 16EB (theoretical), no 4GB limit
 - **NTFS File System:** Compatible with Windows (full), macOS (read-only without tools), not ideal for USB sticks unless used with Windows only. Max. File Size: 16EB (theoretical), no 4GB limit.
- File system can be changed by reformatting the drive using your operating system's disk management tools.
