MediaRange USB Type-C® 3.2 Gen 1 Flash Memory Drive, Swivel Housing, Silver/Black, 16GB

MediaRange Flash Storage Solutions – Reliable data storage for everyday use

MediaRange flash storage solutions are designed for everyday performance and reliability—at home, in the office, or on the move. Whether you're transferring important documents, storing multimedia content, or backing up data, our flash storage devices deliver dependable speed and compatibility across a wide range of devices, and operating systems.

Available in various capacities and formats, MediaRange flash storage products offer the flexibility to match your specific needs. Compact, durable, and easy to use, they're the ideal choice for managing your digital files quickly and securely.

Our USB 3.2 Gen 1 flash drives with USB-C plug offer high-performance data storage in a

classic and compact design. The practical swivel cap reliably protects the connector without the need for a separate cover, making these drives ideal for everyday mobile use.

With storage capacities from 16GB to 256GB and a modern USB-C plug, this flash drive is perfectly suited for fast and convenient data transfers between notebooks, tablets, smartphones, and other USB-C compatible devices. Whether you're storing documents, sharing multimedia files, or backing up essential content, this drive delivers reliable speed and flexibility wherever you go.

Durable, portable, and universally compatible, this USB-C solution is an essential tool for modern digital lifestyles.

FEATURES

Features

- Capacity1): 16GB
- Plug Type: USB Type-C®
- Interface: USB 3.2 Gen 12
- Speed3) (Read-/Write): up to 50 / 15 MB/s
- File System4): exFAT (pre-formatted)
- Design: Swivel-cap housing
- Plug & Play: Ready to use without additional software
- Compatibility: Works with Windows, macOS, Linux, Android
- Packaging: Single Blistercard
- Color: Silver / Black
- Material: Aluminium Swivel / ABS-Plastic Body
- Dimensions (approx.): 18 x 10 x 56mm
- Weight (approx.): 12g

Estimated Storage Capacity5)

- 5.200 Images
- 3 Hours Full HD Video
- 16,000 Songs
- 64,000 Documents

APPLICATIONS

Applications

- Work & School: Store and access presentations, reports, and research
- Personal Use: Archive and share videos, photos, and music
- Backup: Create fast, secure copies of important files

- Media Sharing: Exchange content between multiple USB-C devices
- Mobile Access: Easily manage data on smartphones, tablets, and laptops
- Personal Use: Save and transport photos, videos, music

Operation, Storage and Warranty Conditions

- Designed for general consumer use. For industrial or high-temperature applications, consider industrial-grade alternatives.
- To avoid data loss or corruption, do not disconnect the device during read/write operations and ensure it is correctly ejected from the computer before unplugging.
- Always back up important data.
- Keep out of reach of children and pets.
- Store the device in a cool, dry place, and avoid exposure to extreme temperatures and direct sunlight.
- Operating Conditions: 0°C to 45°C / Non-operating Conditions: -10°C to 60°C.
- Defective devices due to material or manufacturing faults will be replaced free of charge.
- This warranty excludes damage caused by improper handling, misuse, accidents, or incorrect storage.
- No liability is accepted for data loss, regardless of the cause.

Additional Notes

- 1) 1 GB = 1 billion bytes. Actual storage capacity may be less due to formatting and file system requirements.
 - 2) The USB 3.2 Gen 1 specification is technically identical to the previously used terms USB 3.1 Gen 1 and USB 3.0.
 - 3) Data transfer rates can vary depending on the device and file size.
 - 4) File System Suitability:
 - **FAT32 File System:** Compatible with Windows, macOS, Linux, smart TVs, car stereos, gaming consoles. Max. File Size: Limited to 4GB
 - **exFAT File System:** Compatible with Windows, macOS, Linux, Android – ideal for large files. Max. File Size: 16EB (theoretical), no 4GB limit
 - **NTFS File System:** Compatible with Windows (full), macOS (read-only without tools), not ideal for USB sticks unless used with Windows only. Max. File Size: 16EB (theoretical), no 4GB limit.
- File System can be changed by reformatting the drive using your operating system's disk management tools.
