Our USB 3.2 Gen 1 flash drive series features a durable sliding housing that protects the connector without the need for a cap—making it especially practical for daily use. Thanks to the USB 3.2 Gen 1 interface, you benefit from significantly faster data transfer compared to USB 2.0, while maintaining backward compatibility with older USB ports. With capacities ranging from 8GB to 256GB, these drives are the ideal solution for securely managing, transporting, and archiving your digital files.

Compact, lightweight, and compatible with all standard operating systems, these drives offer the flexibility you need to manage your digital files reliably and efficiently.

FEATURES

- Capacity (1): 8GB
- Interface (2): USB 3.2 Gen 1
- Speed (3) (Read-/Write): up to 34 / 9 MB/s
- File System (4): FAT32 (pre-formatted)
- Design: Sliding protective housing (push & slide mechanism)
- Accessory: Key hanger included
- Plug & Play: Ready to use without additional software
- Compatibility: Works with Windows, macOS, Linux
- Packaging: Single Blistercard
- Color: Silver / Black
- Material: Aluminium and ABS-Plastic Body / Nylon key hanger
- Dimensions (approx.): 19 x 7 x 56mm
- Weight (approx.): 9g

Estimated Storage Capacity (5)

- 2,600 Images
- 1,5 Hours Full HD Video
- 2,000 Songs
- 8,000 Documents

APPLICATIONS

Applications

- Work & School: Store presentations, reports, coursework
- Personal Use: Save and transport photos, videos, music
- Backup: Securely archive essential files and media
- Media Sharing: Exchange files between colleagues, friends, or family
- On-the-Go Access: Keep your content with you, wherever you are

Operation, Storage and Warranty Conditions

- Designed for general consumer use. For industrial or high-temperature applications, consider

industrial-grade alternatives.
- To avoid data loss or corruption, do not disconnect the device during read/write operations and ensure it is correctly ejected from the computer before unplugging.
- Always back up important data.
- Keep out of reach of children and pets.
- Store the device in a cool, dry place, and avoid exposure to extreme temperatures and direct sunlight.
- Operating Conditions: 0°C to 45°C / Non-operating Conditions: -10°C to 60°C.
- Defective devices due to material or manufacturing faults will be replaced free of charge.
- This warranty excludes damage caused by improper handling, misuse, accidents, or incorrect storage.
- No liability is accepted for data loss, regardless of the cause.

Additional Notes

- (1) 1 GB = 1 billion bytes. Actual storage capacity may be less due to formatting and file system requirements.
- (2) The USB 3.2 Gen 1 specification is technically identical to the previously used terms USB 3.1 Gen 1 and USB 3.0.
- (3) Data transfer rates can vary depending on the device and file size.
- (4) File System Suitability:
- FAT32 File System: Compatible with Windows, macOS, Linux, smart TVs, car stereos, gaming consoles. Max. File Size: Limited to 4GB
- exFAT File System: Compatible with Windows & macOS versions – ideal for large files. Max. File Size: 16EB (theoretical), no 4GB limit
- NTFS File System: Compatible with Windows (full), macOS (read-only without tools), not ideal for USB sticks unless used with Windows only. Max. File Size: 16EB (theoretical), no 4GB limit.
- File system can be changed by reformatting the drive using your operating system’s disk management tools.
- (5) Estimated values based on average file sizes: (~3 MB/ JPEG), (~6 GB/hr HD video), (~4MB/ MP3) and (~1 MB/Document)
- All technical specifications, including read/write speeds, are based on internal records and tests under controlled conditions. These values are provided for reference only and do not guarantee actual device performance or lifespan.
- All products and illustrations mentioned are subject to change. The illustrations shown may differ from the actual product. Technical changes as well as errors and misprints are reserved.
