MRPL503

Professional Line CD-R 700MB|80min 52x speed, thermo retransfer fullsurface printable, Proselect white, wide sputtered, Cake 100

MediaRange Professional Line CD-R media provide maximum reliability and are designed to meet the high demands of professional duplication. The excellent recording stability allows your data to be professionally duplicated in just a few minutes with write speeds of up to 52x. Their superb compatibility with burners, printers and robotic systems also ensures smooth production. Our entire range of storage media is known for its long archival life and excellent UV light resistance. The Proselect series, with a printing area of 23 - 118mm, is equipped with a special lacquer making these discs perfect for professional thermal retransfer printing. The completely metalized underside of the disc allows for a top-quality continuous image without any color changes in the inner printing area.
