storage solutions. The scratch-resistant surface adds another layer of protection against everyday handling.

MediaRange BD-R XL Triple Layer discs are specially designed for archiving massive data volumes on a single medium. With a capacity of 100GB per disc and 4x recording speed, these triple-layer HTL discs offer an extended solution for demanding data storage tasks such as professional video production, high-volume data backups, or system imaging. The HTL (High-to-Low) recording layer provides long-term reliability and compatibility with Blu-ray XL burners.

These discs feature a white, full-surface inkjet printable layer for fully customizable and professional labeling. The high-resolution surface is quick-drying and designed for use with all standard inkjet printers that support direct disc printing. Give your discs a personal touch—ideal for presentations, customized labeling, or promotional media.

FEATURES

- Capacity (1): 100GB / 450 Minutes Full HD Video
- Format: BD-R XL Triple Layer (HTL type)
- Recording Speed: up to 4x
- Packaging: Single Disc in Jewelcase
- Surface: White, full-surface inkjet printable
- Printing area: 23 - 117mm
- Printable with appropriate inkjet printers
- Professional and quick-drying surface
- Triple Layer (XL) technology for extended storage capacity
- HTL (High-to-Low) recording layer for long archival life
- High compatibility with Blu-ray XL burners and players
- Reliable recording stability for large data volumes
- UV light resistant
- Scratch-resistant recording layer
- Suitable for labeling with CD/DVD/BD markers

Estimated Storage Capacity (2)

- 33,200 Images
- 450 Minutes Full HD Video
- 25,000 Songs
- 100,000 Documents

APPLICATIONS

Applications

- High-volume archiving and long-term data retention
- Professional HD/4K video content storage
- System imaging and recovery backups
- Storing complex software distributions or engineering datasets
- Secure content delivery for multimedia and post-production
- Personalized BDs, photo collections, or promotional discs
- Professional media production

Handling and Storage

- Compatible with all inkjet printers supporting disc printing.
- Hold by the edges or center hole - Avoid touching the recording layer and printable surface.
- Keep discs free from scratches, dust, and fingerprints.
- Clean with a soft, dry cloth only.
- Store in a cool, dry place: 23?°C (±2?°C), Relative Humidity 50% (±5%)
- Avoid direct sunlight, heat, and humidity
- Do not stack for extended periods – separate manually before use
- Keep unrecorded discs sealed in original packaging until needed

Additional Notes and Warranty Conditions

- (1) 1 GB = 1 billion bytes. Actual storage capacity may be less due to formatting and file system requirements.
- (2) Estimated values based on average file sizes: (~3 MB/ JPEG), (~9 GB/hr HD video), (~4MB/ MP3) and (~1 MB/Document)
- Defective discs due to material or manufacturing faults will be replaced free of charge.
- This warranty excludes damage caused by improper handling, misuse, accidents, or incorrect storage.
- No liability is accepted for data loss, regardless of the cause.
- All products and illustrations mentioned are subject to change. The illustrations shown may differ from the actual product. Technical changes as well as errors and misprints are reserved.
- Blu-ray Disc™ and the Blu-ray Disc logo are trademarks of the Blu-ray Disc Association.
