MR501

MediaRange Rewritable BD-RE 25GB, 2x speed, Cake 10

Reliable data storage solutions from MediaRange – perfect for backups, sharing, and everyday use.

MediaRange optical media offer high-grade quality for storing your digital data safely and efficiently. Whether you're backing up important documents, archiving multimedia content, or distributing projects to clients, our optical media deliver consistent performance and high compatibility with a wide range of burners and playback devices.

Our optical storage media are available in various formats, capacities, surface types, and packaging options to suit your needs – from everyday use at home to demanding professional environments. Engineered for reliable recording stability, long-term archival life, and excellent UV light resistance, MediaRange optical media are ideal for users who require reliable data storage solutions. The scratch-resistant surface adds another layer of protection against everyday handling.

MediaRange BD-RE storage media are ideal for flexible and efficient data management. Unlike write-once Blu-rays, BD-RE discs can be recorded, erased, and rewritten up to 1,000 times. With a capacity of 25GB these discs are perfect for temporary backups, data updates, or frequently changing files. With recording speeds of up to 2x and excellent compatibility with BD-RE drives and players, these discs provide a dependable and reusable solution for dynamic data workflows.
